

MIKE BAILEY PAINT SERVICES PROJECT PROFILE

Shepparton, Victoria Nixon Street 2 Storey Offices

Project:
Refurbishment of 30 year old
building exterior, pears and
adjoining wall.

Completed: May 2012

Before

Former home to Northern Pear Growers Ltd.

This substantial office block in Shepparton was painted in exterior colours chosen by an interior designer and using Mike Bailey Paints. The landmark original pears at the entry to the building were researched and painted to match their type. The colour specification required up to 5 different colours to get the effect. The artistry work was done by one of Mike's specialty painters. Further work was required to repair the cracked dividing wall. This was done with a fine film overlay which was rendered with the matching paint.

Background: This challenging project was referred by the developer's for major refurbishment to the building's exterior and dividing walls, alongside restoration of 2 pears that presented at the building's entrance. After research of the pear variety and appropriate colours, we were able to restore their original look. by applying up to 5 different colours to get the effect. The artistry work was done by one of our specialty painters.
